

BIZ LIBRARY

LEARNING INITIATIVES

Learning initiatives provide the ability to create custom learning paths, that address your specific business challenges and needs. Easily track professional certification progress for continued education while simultaneously creating robust learning plans and structured programs for specific employee groups.

Curate

Learning initiatives provide the ability to create custom learning paths, that address your specific business challenges and needs.

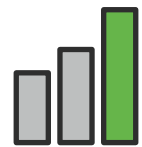

Organize

Control the order in which content is delivered, or chunk it into stages with a simple drag and drop system.

Automate

Customize the learning initiative to renew at specific intervals and automatically assign using rules.

Insights

Report on learners' activity or track individual assignment progress.

COMMON USE CASES

Compliance Training

Learning Initiatives allow you to set up your learning tracks to renew at various times, removing the burden of manually assigning content. Create, manage, and track your required compliance training all in one place.

Address Skill Gaps

Whether it's learning the ins and outs of Excel spreadsheets, or mastering the art of difficult conversations and constructive feedback, Learning Initiatives allow you to address these skill gaps through guided training.

Train New Managers

Challenges like transitioning from peer to superior, coaching your employees, and conflict resolution are common learning initiative topic areas that can benefit organizations looking to train new managers.

Employee Onboarding

Using Learning Initiatives, your organization can create and manage a comprehensive onboarding plan, from one central location.
