### **RATINGS & COMMENTS ON CONTENT ITEMS**

System-wide ratings by learners and administrative visibility into what your organization is saying.

### **CURATED LEARNING PATHS**

Content curated by our team to help a learner find targeted content and begin learning quickly.

### **CUSTOM AICC & SCORM CONTENT**

Ability to upload SCORM and/or AICC compliant content, track, and report on material.

### **MANAGE CLASSROOM, ON-THE-JOB & EXTERNAL TRAINING**

Manage instructors, facilities, online registration, attendance, scheduling, external conferences, webinars, and workshops with this feature.

### **INDIVIDUAL & SHAREABLE PLAYLISTS**

Save content for later and quickly reference or share content with co-workers to encourage collaboration.

### **CURRICULUM BUILDER**

Easily build and assign curriculum to learners using a variety of filter and search options.

### **RECOMMENDATION ENGINE**

Receive suggested content from the system based on past learning and learner-set preferences.

### **FILTER & SORT CRITERIA ASSOCIATED WITH CONTENT**

Narrow down the topic you're searching for to find the right video for each situation.

### **CUSTOM FILES, DOCUMENTS, & LINKS**

Upload other learning materials like recorded webinars, checklists, job aids, handbooks, policies, etc.

### **QUIZ & SURVEY BUILDER**

Assign and share quizzes and surveys as follow up content to help measure the results of company-specific learning.

### **CERTIFICATION MANAGEMENT & LEARNING PLANS**

Track professional certification progress for continued education while simultaneously creating specific learning plans for employee groups.

### **QUALIFICATION TRACKING**

Track employees specialized qualifications, internal or external, all in one place.

### **LEARNER FILTERS**

Make assignments, create teams, view status, and assign certifications based on learners' attributes.

### **GAMIFICATION**

Increase engagement with training content through social learning principles and friendly competition.

### **LEARNING INSIGHTS**

Drive company-wide utilization by comparing the average logins, launches, and completions by teams, as well as how your organization stacks up against benchmark, peer, and total BizLibrary clients.
