

LXP

USER AND ASSIGNMENT MANAGEMENT

Easily track and manage users and assignments from one central place.

BRANDED SITE DESIGN AND CUSTOMIZABLE HOME PAGE

Add a company-specific logo and color palette, and customize your organization and teams' homepages with various pre-built content channels and widgets.

CERTIFICATES OF COMPLETION

Learners can download and print completion certificates upon completion of a lesson.

COURSE RECOMMENDATION ENGINE

The BizLibrary Recommendation Engine suggests content based on a learner's assignments, recent learning activity, and profile preferences.

ROBUST SEARCHING AND FILTERING CAPABILITIES

Quickly narrow down the topic you're searching for to find the right video for each situation.

CURRICULUM BUILDER

Easily filter and search for curations of content that you wish to turn into an assignment, playlist, or more!

GAMIFICATION

Use a system of points and badges to create a competitive learning experience that can easily be customized and configured to your organization's needs.

APPROVAL AGENTS

With Approval Agents, learners can submit credit for training that occurs outside the learning platform and/or ask permission to attend an external training.

ADVANCED REPORTING WITH DASHBOARD INSIGHTS

Having a centralized space for advanced reporting and learning insights ensure your learners are hitting desired milestones.

SOCIAL RATINGS AND REVIEWS

Learners have the ability to rate and review all content to help peers find popular titles and lessons quickly throughout the learning journey.

SCHEDULED AND TRIGGERED EMAIL MESSAGES AND REMINDERS

Automate and schedule custom triggered messages to learners when various actions occur in the system - when an assignment is made, when a lesson is completed, when a new learner is created, and more!

CURATED LEARNING PATHS

Collections of video lessons selected by our content experts to help learners find targeted content within a specific focus and begin learning quickly.

INDIVIDUAL AND SHAREABLE PLAYLISTS

Save content for later and quickly reference or share content with co-workers to encourage collaboration.

LMS
LXP+

QUIZ AND SURVEY BUILDER

Assign and share quizzes and surveys as follow up content to help measure the results of company-specific learning.

CUSTOM CONTENT CREATION AND MANAGEMENT

Ability to upload SCORM and/or AICC compliant content, as well as other learning materials, such as recorded webinars, job aids, checklists, policies, and much more.

COMMUNITY AND SOCIAL LEARNING

Encourage social learning through Community! This built-in feature allows the creation of multiple community groups for departments, cross-functional teams, and more!

LEARNING INITIATIVES

Track professional certification progress for continued education while simultaneously creating robust learning plans and structured programs for specific employee groups.

CLASSROOM AND EXTERNAL TRAINING MANAGEMENT

Manage instructors, facilities, online registration, attendance, scheduling, external conferences, webinars, and workshops with this feature.

QUALIFICATION MANAGEMENT

Track employees specialized qualifications, internal or external, all in one place.
