

CONTENT MANAGEMENT

Take your off-the-shelf library to a company-specific learning center. Whether you're looking to provide custom content to your learners, or hoping to give them a social learning experience, BizLibrary's Content Management tier performs as a one-stop-shop for all your learning and development needs.

WHY CONTENT MANAGEMENT?

Providing customized and company- or product-specific content to your learners will provide the ultimate learning experience. The Content Management tier offers all the features of our Portal solution, plus the ability to create and track quizzes, survey and evaluations, a social learning environment, and custom content management.

QUIZ & SURVEY BUILDER

- Create quizzes and surveys quickly and easily.
- Assign and share quizzes and surveys as follow up items to help measure the results of company-specific learning.
- Automatic scoring and results are available on-demand, online, and in real-time.
- Gather feedback and data to reduce assumptions or unknowns.
- Identify if there are knowledge gaps among learners.

CUSTOM AICC & SCORM COURSES

- Simply upload your own custom-developed AICC and SCORM courses.
- Provide exceptional accessibility by uploading all content into the system.
- Track and report on custom material.
- Easily add, remove or update content over time.
- Supply a blended learning model.

SOCIAL LEARNING & COLLABORATION

- Create custom communities, modeled after social networking tools, to increase employee engagement.
- Learner generated collaboration with creation of statuses, ideas, links, files, and questions.
- Search and tag features offer quick access to information.
- Safe & secure environment.
- Peer-to-peer recognition.
- Ability to create multiple community groups for departments, cross-functional teams, and more!

CUSTOM FILES, DOCUMENTS AND LINKS

- Share and track views of web links, documents and other file types.
- Upload recorded presentations or videos, job-aids, and checklists.
- Share and track documents like handbooks and company policies.
- Enjoy version control while ensuring that learners are accessing the most up-to-date documents.
