LEARNING MANAGEMENT SYSTEM

BIZ LIBRARY

BizLibrary's award-winning Learning Management System meets the needs of today's learners while providing organizations the tools they need to manage compliance training. Whether you're deploying online training, managing classroom training, supporting self-driven learning, or providing performance support, BizLibrary's LMS is a complete learning platform.

QUIZ & SURVEY BUILDER

- Create quizzes and surveys quickly and easily.
- Identify if there are knowledge gaps among learners.
- Assign and share quizzes and surveys as follow up items to help measure the results of company-specific learning.
- Automatic scoring and results are available on-demand, online, and in real-time.

CUSTOM AICC & SCORM COURSES

- Simply upload your own custom-developed AICC and SCORM courses.
- Share track views of web links, documents, and other file types.
- Track and report on custom material.
- Easily add, remove or update content over time.
- Upload recorded presentations or videos, job-aids, and checklists.
- Share and track documents like handbooks and company policies.

DASHBOARD REPORTS

- Dashboard reports presenting quick and accurate progress updates on company learning.
- Flexible filtering options which include teams, date range, lesson titles, activity, and more!
- Compare data over historical time periods, as well as to other organizations and teams.

QUALIFICATION TRACKING

- Track employees' specialized qualifications all in one place.
- Notify learners of qualifications expiring in a timely manner.
- Get a bird's-eye view of which teams have qualified learners on them.

SOCIAL LEARNING & COLLABORATION

- Create custom communities, modeled after social networking tools, to increase employee engagement.
- Search and tag features offer quick access to information.
- Learner generated collaboration with creation of statuses, ideas, links, files, and questions.

CERTIFICATION MANAGEMENT & LEARNING PLANS

- Track professional certification progress, continuing education or internal certifications.
- Create targeted learning plans for individual employees or employee groups.
- Include due dates, expiration dates and multiple stages of offline and online learning activities.

MANAGE CLASSROOM, ON-THE-JOB & EXTERNAL TRAINING

- Online instructor facility management.
- Online registration and event scheduling.
- External conference, webinar, and workshop tracking and approval.
