

## Create a Central Hub for Training

Streamline and centralize your training processes to increase compliance, engagement, and retention - all while reducing costs. BizLMS combined with the incredible BizLibrary support empowers training managers to build successful learning programs from the ground up. It can also support any type of training initiative, from compliance to upskilling to leadership development and beyond!

## Learn together - no matter where you are.

BizLMS's **mobile-friendly design** and **hybrid learning features** make it perfect for giving a dispersed workforce the same training experience.

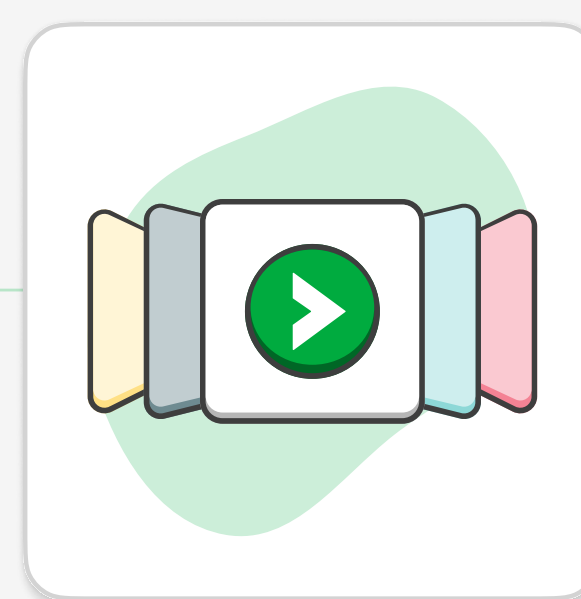

Boost engagement and participation through two-way audio/video, screensharing, chat, gallery and focus views, live QA, and more!
