

SOCIAL LEARNING EXPERIENCE

Informal learning is on the rise in today's workplaces, and social learning is a large aspect of that. To solve problems, employees need answers in the moment, and peers and colleagues can quickly help with finding and learning the information needed.

Modern learners aren't satisfied with training in a bubble – they seek out input from others for nearly everything, whether it's the quality of content, new ideas for old problems, or which resources and tools can help with unfamiliar tasks.

When you have a modern, highly collaborative work environment, you need training that brings out the best in social learning. BizLibrary's online learning solutions are built with peer-to-peer interaction at the forefront of the learning experience. With everything from ratings and comments to an entire social learning platform, our solutions make it easy for your employees to work and learn together.

SOCIAL LEARNING ELEMENTS

Our award-winning content library, The BizLibrary Collection, is loaded with social features:

RATINGS

Give a rating to any lesson or course, and see how others have rated it

COMMENTS

Share comments and thoughts on individual lessons and courses

SORTING CONTENT

When searching for content, sort by highest rated or most popular

SHARE VIDEOS

Share video lessons with colleagues through email or post to Community

SHARE PLAYLISTS

Create and share playlists of content with individuals or teams within the platform

COMMUNICATE AND COLLABORATE

The Community social learning application provides your employees with a place to quickly communicate with their team or department, various groups and committees, or even the entire company.

Features of Community include:

NEWSFEED

Share, read, and interact with posts from anyone

COMMENTS, RATINGS & LIKES

Add comments or questions, give a rating, or like any post

MY COMMUNITIES

Build specific groups of employees so only people in those groups see posts within them

BRAVOS

Any employee can give anyone else a shout-out for a job well done

CUSTOM SIDEBAR

Post about birthdays, work anniversaries, or company information to be seen for an extended period

With these features and many more, BizLibrary's online solutions will help you deliver the social learning experience that's so important for training today's modern learners.
