

Provide premium, expert-led learning experiences for your leaders, new managers, and high-potentials.

What kind of difference would it make for an organization's learners if they could be provided with **keynote-level content** all within a **flexible and personalized blended learning environment**? BizAcademy is bringing industry leader expertise directly to learners in the virtual classroom.

Whether transitioning into management or looking to take their leadership skills to the next level, BizAcademy will give learners the expertise they need to inspire their teams, excel as a leader, and drive a culture of growth and development in their organizations.

Leaders can engage in immersive cohort learning experiences with their peers

Learners can join their peers on a journey to forge new paths in workplace development. BizAcademy classes will consist of 10-20 learners from different organizations or just yours! Content will include synchronous and asynchronous learning opportunities delivered through live skill discussions, group coaching sessions, as well as on-demand lessons and practice materials.

Learners can benefit from the expert's real-world experience alongside new career contacts - growing their network and their knowledge at the same time.
