

# How Do BizConnect Integrations Work?

The admin of the platform (who has API key access) will be guided through a few steps, including entering your credentials to grant access. For a video walkthrough of this process, click [here](#).

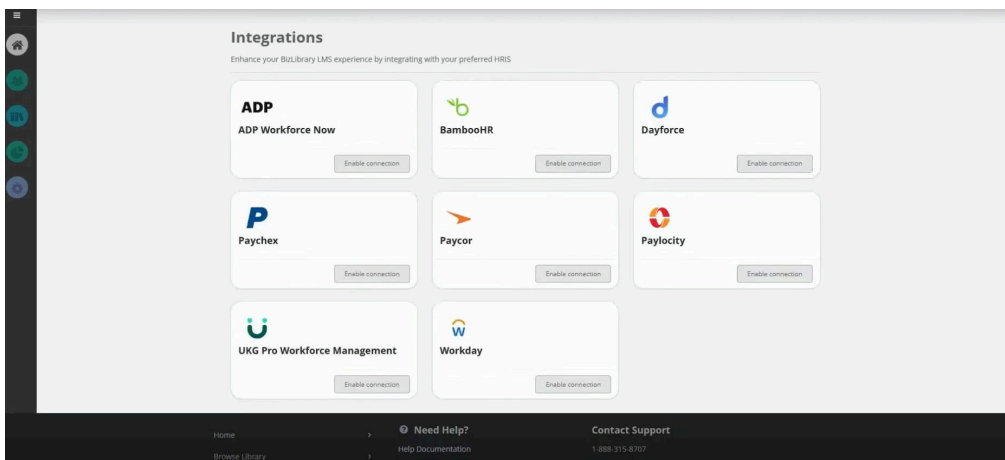

1

Administrators will navigate to the BizConnect option under “System” in BizLMS.

2

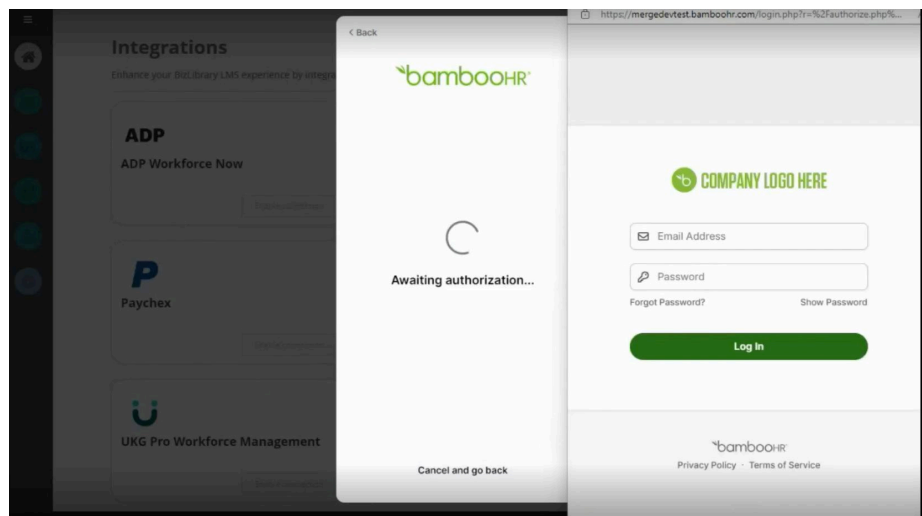

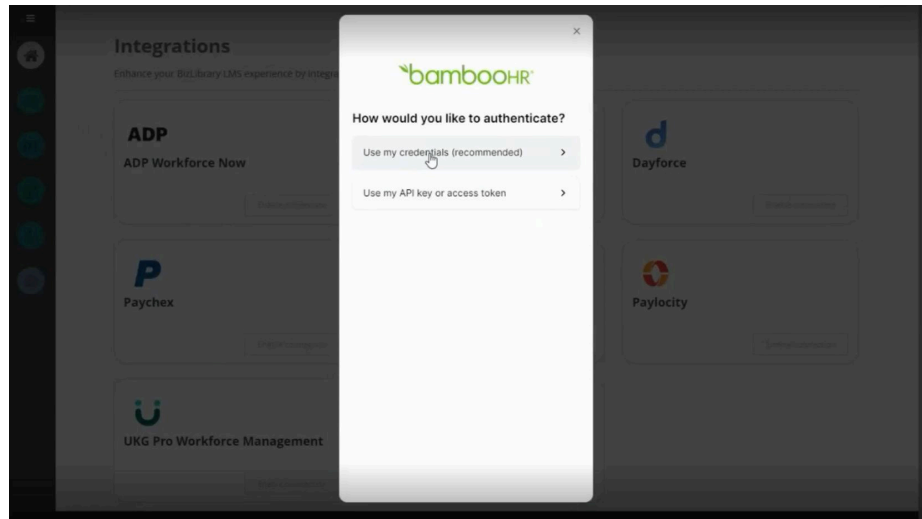

They will be brought to a screen where they will be able to choose from a number of available integrations.

# How Do BizConnect Integrations Work?

3

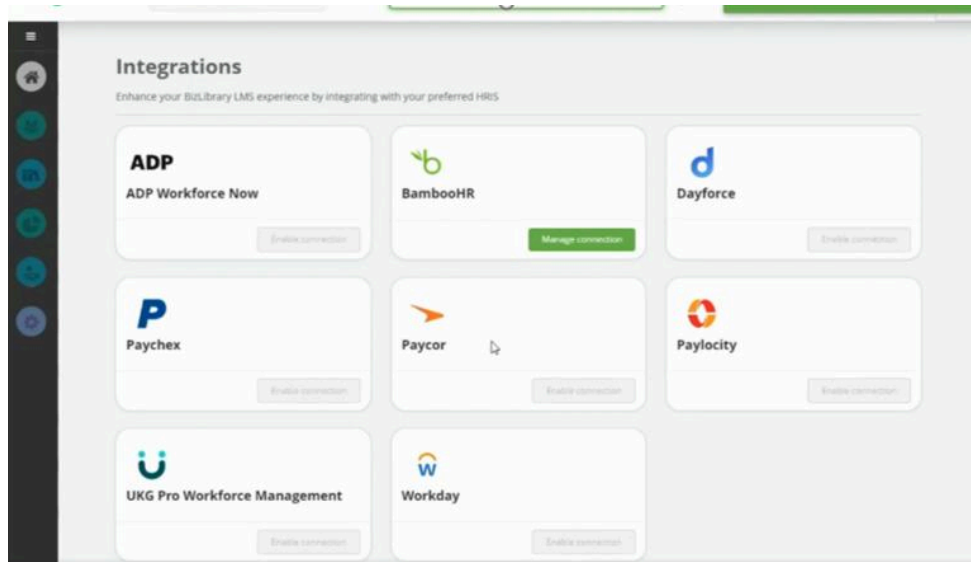

Once they select their integration, they'll be prompted to enter information for their platform, as well as the credentials for their platform.

# How Do BizConnect Integrations Work?

4

Once authenticated, administrators will now see and be able to manage their integration.
