

BIZ LIBRARY

LEARNING MANAGEMENT SYSTEM

Our learning management system is an ever-evolving platform of relevant features and functionality to help you achieve more at your organization.

Learning Management System

Whether you are looking to deploy off-the-shelf video content, upload custom content, manage classroom training and certifications, or all of the above, our learning management system covers all your training needs, and comes with all the benefits and features of our LXP. We understand the importance of having employee development tracked in one place and we've built our platform with administrators and learners in mind.

The Learning Management System includes all the great features from our LXP, plus:

- Branded site
- Full user and assignment management
- Real-time data and reports
- Messages based on system triggers
- Featured news area
- Ratings and comments on content items
- Curated learning paths
- Individual and shareable playlists
- Curriculum builder
- Recommendation engine
- Filter and sort criteria associated with content
- Mobile friendly platform
- Inline help
- Learning insights
- Gamification
