

Content Library

The BizLibrary Collection is an award-winning, aggregated, online training library containing thousands of micro videos that cover a wide variety of topic areas.

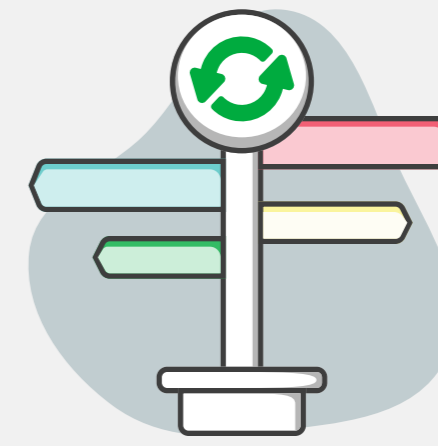

Large Selection

Our library contains thousands of video lessons and courses covering topics important to growing organizations – business skills, HR compliance, information technology, leadership & management, sales & service, software, and workplace safety.

Support Materials

To help extend learning retention and increase ROI, many of our lessons and courses include quizzes and additional support materials.

Variety of Formats

Learning isn't one size fits all. Our content offers various formats to meet the needs of all types of learners from short, micro-video lessons, to more in-depth video courses, interactive video programs, ebooks and eLearning courses.

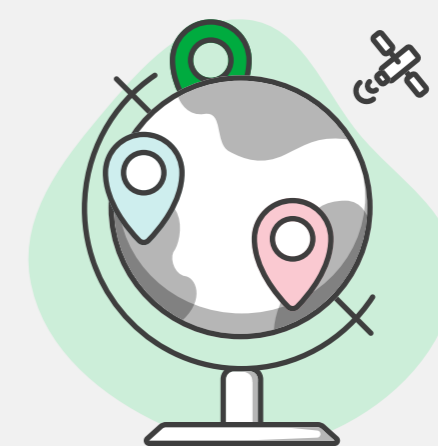

Learning Reinforcement

Boosted content helps you reinforce learning and maximize your ROI. Learners can simply enroll in a booster program and receive quiz-like questions via email in the days and weeks following a completed lesson.

Mobile Friendly

Making training accessible is critical to a successful program. Our learning technology platform is completely responsive, giving you the ability to train on any device – desktop, tablet, or mobile.

Unlimited Access

Giving learners an all-access pass to content in the collection allows them to view the content they want and need to be successful in their role.
